

# Fun, Free Refresh and Readjust

“From the first minutes arriving at Kieve, there was no question. I was home: welcomed with warmth, and a feeling that I had arrived.”

*Joe – Veteran from Bangor, Maine*

## Join us

*on beautiful, quiet Damariscotta Lake in mid-coast Maine so that you and your family can have some time together while we house you, feed you, and try to give you an important time together.*

*Last year we completed 3 pilot programs designed to help OIF & OEF vets get back into civilian life comfortably. The veterans and their families got so much out of their time at Kieve that we want to double the number whom we serve.*

## What OIF and OEF vets and their families have said about their time at Kieve:

### Trina – New York City – parent

“Thank you all for a wonderful time. The girls (Shenia and Nevaeh) were very excited when they arrived home to share their experience with any and everyone who would listen. Thank you Kieve staff for such grace, patience, hospitality, and love.”

### Jeff – Navy Seal

“I believe you have given some veterans a valuable opportunity to help them reengage in what was “normal daily life.”

### Butch – Millinocket, Maine – Veteran

“I made some really good friends and plan to keep in touch. We have a lot in common.”

### Jane – Veteran’s spouse and parent

“The connections that I have made with our military families and spouses in similar situations to mine are invaluable to me. They are connections that were made in casual, comfortable moments of just talking about our lives and experiences. As my husband leaves next week, I now have a hand-full of supportive ears that will listen and understand.”

### Jake – son of two vets

“I made new friends and hopefully they will benefit me, in the sense of being there when my parents redeploy again.”
